

I Avenue Specifications under Sample

DESCRIPTION

Avenue is a flame retardant acrylic-coated 600D woven polyester fabric. Built to last, it delivers excellent durability, cleanability, strength and resistance to water, mildew, UV rays, and abrasion. Avenue is print receptive and easy to fabricate, resisting puckering and fraying during cutting and sewing. Backed by a 5-year limited warranty. **Ideal for:** yurt exterior walls, awnings, canopies, and more.

PROPERTY	TEST METHOD	AVERAGE VALUES
Finished Weight (oz./yd²)	ASTM D3776	11.0 <u>+</u> 5%
Width (in)	ASTM D3774	61
Hydrostatic Resistance (cmwc)	AATCC Method 127	90 min.
Spray Rating	AATCC Method 22	70 min
Chatillon Hand (lbf)	ASTM D4032	25 <u>+</u> 5
Tensile Strength, (lbf) Warp x Fill	ASTM D5034	500 x 350
Tongue Tear Strength, (lbf) Warp x Fill	ASTM D2261	20 x 15
Air Permeability (cfm)	ASTM D737	0
Flame Resistance	CPAI 84 NFPA 701-2	Pass Pass
Surface Burning		
Characteristics	ASTM E84	Class A
